The Division of Environmental Health & Engineering is the focal point of the Palm Beach County Health Department's effort to protect you and your family from the harmful effects of toxic chemicals, wastes, disease vectors, safety hazards, natural disasters, and contaminated air, food, and water.

Our Staff works to anticipate, recognize, evaluate, and eliminate or control hazards that might endanger your health or the quality of our environment. The division is a critical component in protecting the health and well-being of Palm Beach County.

Whether it is the air you breathe, the water you drink, the food you eat, the home you live in, or the school or daycare your child attends—at the Division of Environmental Health & Engineering, **we touch your life everyday!**
