4 **NOW, THEREFORE**, be it ordained by the Board of County Commissioners of  
5 Palm Beach County, Florida, sitting as the Environmental Control Board, that:

6  
7 **SECTION 1. AMENDMENT TO COUNTY HEALTH DEPARTMENT AND**  
8 **SOLID WASTE AUTHORITY PERMITS, LICENSES AND APPROVALS**

9 **Chapter 11, Article II, Section 11-20 of the Palm Beach County Code (§ 4, Ord. No.**  
10 **78-5, as amended) is hereby amended as follows:**

11  
12 **Sec. 11-20. County health department and Solid Waste Authority permits, licenses**  
13 **and approvals.**

14 (a) Before any of the following activities may be commenced, written approval must  
15 be obtained from the health department in accordance with subsection (d):

16 For the purpose of this ordinance the word "construction" shall include reconstruction  
17 and renovation.

18 (1) Open burning for land clearing purposes.

19 (2) Construction of hazardous waste facilities.

20 (3) Utilization of on-site sewage treatment & disposal systems in  
21 subdivisions.

22 (4) Initial operation of drinking water systems or distribution lines,  
23 wastewater collection or transmission systems, or private lift stations.

24 (5) Renovation projects involving the removal of asbestos containing  
25 material.

26 (6) Demolition of structures that require notification under the National  
27 Emission Standards for Hazardous Air Pollutants (NESHAP), Code of Federal  
28 Regulations, Title 40, Part 61, subpart M, as amended.

29  
30 (b) Before any of the following activities may be commenced, permits must be  
31 obtained from the health department:

32 (1) Construction of on-site sewage treatment and disposal systems.

33 (2) Construction of community, noncommunity, and nontransient  
34 noncommunity water supply systems.

35 (3) Construction of water distribution systems.

36 (4) Construction of limited use community and limited use commercial water

- 24 (10) Community based residential and group care facilities.
- 25 (11) Migrant labor housing facilities.

26

27 (d) No permit, license or approval shall be issued until the county health department  
28 determines that:

- 29 (1) The activity will not adversely affect human health and welfare, plant or
- 30 animal life, and the reasonable enjoyment of life, property or the conduct of
- 31 business; and
- 32 (2) The activity complies with the requirements contained in the applicable
- 33 statutes, special acts and rules adopted in section 11-19. Compliance may be
- 34 determined by the last recorded inspection.

35

36 (e) Unless otherwise provided by ordinance or rule or specified by the license, every  
37 license shall expire on December 31 of each year or on change of ownership and shall  
38 be renewable annually. Construction permits and written approvals shall be valid for the  
39 duration of the activity for which they are issued unless otherwise specified by the  
40 permit or approval.

41

42 (f) No permit, license or written approval shall be issued until all fees have been paid.

(i) Solid Waste Authority of Palm Beach County permits, resolutions, and orders:

(1) Prohibitions:

a. No person shall operate, maintain, construct, expand, or modify any resource recovery and/or waste management facility without first having applied for and received a valid operating permit from the Solid Waste Authority of the county.

b. No person shall operate, maintain, construct, expand, or modify any resource recovery and/or waste management facility in violation of any resolutions, rules, or orders adopted by the Solid Waste Authority of the county.

c. No person shall collect solid waste in violation of any rule or resolution including rules or resolutions creating exclusive franchises.

(2) Enforcement procedure:

a. The Executive Director of the Solid Waste Authority of the county shall determine compliance with the provisions of subsection 11-20 (i)(1) of section 11-20. Upon determination that a violation of subsection 11-20(i)(1) has occurred, the Executive Director of the Solid Waste Authority of the county shall give the violator a reasonable time, by formal written notice, within which to correct such violation. Should the violation continue beyond the time specified for correction, the Executive Director of the Solid Waste Authority shall notify the Environmental Control Officer in writing of such failure to correct the violation.

b. Upon notification by the Executive Director of the Solid Waste Authority of the county that there is a violation of subsection 11-20 (i)(1) of section 11-20, which has not been corrected within the time specified by the Executive Director of the Solid Waste Authority, the Environmental Control Officer shall follow the procedures provided by Chapter 77-616, Special Acts, Laws of Florida, as amended, and Ordinance No. 78-5, as amended by Ordinance No 97-58, to bring the case for hearing before the Environmental Control Hearing Board.

(3) Public health threat violations:

## Fiscal Analysis of Proposed Revised Fees

### Florida Department of Health in Palm Beach County - Environmental Public Health Fees, 2022

The Division of Environmental Public Health (EPH) of the Florida Department of Health - Palm Beach County collects fees for certain annual licenses, plan reviews, permits, written approvals and other miscellaneous services. Collection of these fees supports regulatory activities which protect the public from disease-causing agents in the environment. Palm Beach County Code Chapter 11, Article II, Section 11-24 authorizes fees for programs and services that the county has directed the Division to carry out, but for which fees are not established by state statute. Currently, these county-authorized fees provide approximately \$1,296,600 of revenue annually, or 11% of EPH's annual \$11.9 million dollar budget. An additional \$1.78 million comes from state authorized fees, meaning 26% of total division costs are supported by fees. The remaining funding comes from State General Revenue (43%), categorical funds such as State and Federal grants (12%), and County Ad Valorem funding (19%).

The county fee ordinance for County Health Department Licenses and Approvals was last updated in 2014. That revision added several new fees needed to address programmatic changes and eliminated certain fees due to changes in regulatory authority. The primary focus of the current amendment is to supplement existing state permit fees that are not sufficient to support the level of services currently being provided, including information technology resources for digital records retention and public access. Other supplemental fees are being added to meet the increased cost of providing services at an enhanced level (migrant labor housing inspections). New/increased fees are listed below, along with the anticipated revenue increases by category. Overall, these changes will increase fee support to 32% of total funding, reduce dependence on general revenue, and contribute to a more stable and sustainable staffing level.

-----------------------	------------------

\*Counts are an estimate of expected services or facilities that will incur the fees, based on current service levels.  
 \*\* Tbd: to be determined

**Annual License Fees** for Sewage Lift Stations and the first tier of Hazardous Waste Generator are being increased to reflect the cost of conducting inspections and post-disaster monitoring.

**Plan Review Fees** are being established for newly opened locations in state programs where plan review is required but there is no established fee.

- Community Based Residential Facilities include Assisted Living Facilities, Residential Treatment Facilities, and Adult Family Care Homes. This will only impact new facilities, which have been increasing in number and capacity in recent years.
- Temporary Tattoo/Piercing permits are required for conventions and events held in non-permanent locations, typically with multiple artists.
- New and Modified Public Swimming Pools require engineering review for safety and sanitation standards. Public pools include those at hotels, condominiums, community associations, and clubs.

**Miscellaneous Service Fees** being added include an initial application fee for all newly permitted facilities, as well as a processing fee for annual permit renewals. This will affect all state annual permits (Pools, Biomedical, Food, Body Art, Tanning, Mobile Home Parks, Migrant Labor Camps, and Drinking Water Systems). Annual fees based on facility size are being implemented for Community Based Residential Facilities, which are inspected annually but currently have no fees. A per occupant fee is being added to supplement the state fee for Migrant Labor Camps, in order to support adequate staffing in the program. An additional county fee for septic site evaluations will apply when the applicant elects for the site work to be performed by the department instead of a private evaluator.

**Permit Fees** for the Onsite Sewage Treatment and Disposal System (septic tank) program will see an increase to the county Application fee for septic construction permits, including new construction, repairs, and modifications impacting the septic system. This will allow for permit specifications and site plan records to be digitized and made available in electronic format, benefiting clients and contractors.

**Fees for Laboratory Services** are being established to support the operation of the newly created Environmental Health Water Laboratory, which will be capable of performing in-house testing of potable and non-potable water supplies, beach water, and wastewater. These services will be available at the request of municipalities, utilities, and residents, and the in-house lab will be also be available for rapid post-disaster well clearances, which are essential in the wake of flooding and power outages.
